Undeliverable: QA project 3

Microsoft Outlook

[to/sender line illegible]

Office 365

Your message to [illegible] couldn't be delivered.

A custom mail flow rule created by an admin at
pitt.onmicrosoft.com has blocked your message.

Executable attachments are not permitted.

[sender]	Office 365	pitt.edu
Sender		**Action Required**
		Blocked by mail flow rule

How to Fix It

An email admin at pitt.onmicrosoft.com has created a custom mail flow
rule that blocks messages that meet certain conditions, and it appears
that your message has met one or more of those conditions.

- Check the text above for a custom message from the email admin
  that may help explain why your message was blocked and how
  you might be able to fix it. For example, removing prohibited
  words from the message or sending the message from a different
  email account may be sufficient to deliver your message.

If you've tried and you're still not able to fix the problem, consider
contacting the email admin at pitt.onmicrosoft.com to discuss what to
do. While they're unlikely to remove or relax the rule, if you have a
legitimate need to deliver your message they may offer guidance for
how to do so.

More Info for Email Admins

Status code: 550 5.7.1 078

This error occurs because at email admin at pitt.onmicrosoft.com has created a custom
mail flow rule that has blocked the sender's message.

In some cases, the sender can change the message so it no longer violates the rule.
However, depending on the rule's conditions, it's possible that the only way to deliver
the message is to change the rule itself, and only an email admin at pitt.onmicrosoft.com
can do that. Although it's possible the rule is unintentionally flawed or it's stricter than
the admin intended, it may be working exactly as they want it to.
